

Aya Almomany

QUALITY ASSURANCE ENGINEER · MOBILE TEST AUTOMATION · API & INTEGRATION TESTING

Amman, Jordan · +962 79 260 4002 · ayazalmomany@gmail.com · linkedin.com/in/aya-almomany

SUMMARY

QA Engineer specializing in mobile automation and API testing across web, mobile, and back-end layers. Built a Maestro automation workspace from zero and wired smoke and regression suites into GitHub Actions CI, cutting regression testing time by ~50%.

TECHNICAL SKILLS

Automation & CI: Maestro (mobile UI automation), GitHub Actions, parallel execution, smoke & regression suites

Testing: Functional, regression, integration, exploratory, end-to-end, release readiness

API & Data: Postman, REST API testing, SQL, data validation

Tools: JIRA, Git, Agile/Scrum, C#, Unity

Languages: Arabic (native), English (professional)

EXPERIENCE

Freelance Quality Assurance Engineer — Remote

Nov 2025 – Present

- Deliver manual and automated QA for client web and mobile projects — test planning, functional and regression passes, Maestro automation, and API/SQL validation.

Quality Assurance Engineer — Switch Business Solutions, Amman

Jun 2025 – Oct 2025

- Built the company's first mobile automation workspace in Maestro — reusable flows, selectors, and assertion standards for scalable smoke and regression coverage.
- Integrated automated suites into GitHub Actions with parallel execution and failure reporting, cutting regression testing time by ~50%.
- Tested web and mobile releases end to end — functional, regression, and exploratory passes, API and SQL validation with Postman, and JIRA defect reports with severity triage.
- Reported coverage, defect trends, and release readiness to developers and product owners in Agile ceremonies.

Game Development Trainee (Unity / C#) — AppTrainers, Amman

Dec 2024 – May 2025

- Developed and tested gameplay and UI in C#/Unity for PC and Android — performance, stability, and compatibility across devices, with fixes verified in JIRA.

PROJECTS

JobHub — QA Engineer (Graduation Project)

Mar 2024 – Jun 2024

- Designed and executed end-to-end scenarios for candidate and employer journeys across web and mobile — functional, regression, API, and SQL validation.

EDUCATION & TRAINING

B.Sc. in Computer Science — Al-Balqa Applied University

Sep 2020 – Sep 2024

Quality Assurance Training — Switch Business Solutions

2025
